**Garrett Bainwol**

has successfully completed the online, non-credit Specialization

# Databases for Data Scientists

In this specialization learners developed essential skills about relational databases, including relational database design, database software fundamentals, and how to use the Structured Query Language (SQL) to work with databases. The specialization also introduced advanced topics in the field, such as database administration, data warehouse, big data, and NoSQL. Learners completed multiple projects to apply their new knowledge and skills.

Di Wu  
Instructor  
Data Science

Alan Paradise  
Teaching Professor  
Computer Science

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
